

## Corina Benitez

Project Rule Number, 2026-006-309-OW. Let it be known, that You ARE CHARGED with PROTECTING POEPLER, NOT PROFITS! To Poison the land even more that it has been, all in efforts to make the Wealthy, wealthier is NOT STEWARDSHIP. Some tough decisions require a spine, backbone and values. Growth in over populated areas Must be curtailed! Data Centers MUST NOT be allowed to suck up all the water for their private use. If you allow these measures, any person with a Brain (not an expert) can Inform you of the leaching that will occur, and make the water unusable for people, agriculture and farming. Look to what has happened in other countries. This MUST NOT be allowed to happen in Texas..
